# Ford

THE UNIVERSAL CAR

Ford cars have become such a world utility that it would almost seem as if every family ought to have its Ford car. Runabout, Touring Car, Coupe, Sedan, (the two latter have enclosed bodies), and the Truck Chassis, have really become a part and parcel of human life. You want one because its service will be profitable for you. We solicit your order at once because, while production is limited, it will be first come, first supplied.

### ECONOMICAL FEED FOR SHEEP

Alternating Pasturage Advised to Keep Plants Growing and Prevent Stomach Worms.

(Prepared by the United States Department of Agriculture.)

Because of the importance of economical feeding in profitable sheep raising, the United States department of agriculture directs special attention to opportunities for growing forage crops as a feed for lambs and ewes.

Early spring pasturages of wheat or rye may be used at the start. These provide succulent green feed appetizing to the ewes and lambs. Overpasturing, however, must be avoided when these crops are later to be used for grain. Where it is possible to keep the rye or wheat pasture about 1 1/2 to two inches high, the lambs and ewes seem to relish it more and will consume larger amounts. Oats and Canadian field peas may be sown together early in the spring at the rate of 1 1/2 bushels of field peas and 1 1/2 bushels of oats to the acre. This crop should then be ready when it is time to take the flock off the rye or wheat.

Rape, another good forage crop, may be sown at the rate of six to eight pounds an acre, and will provide later pasturage, following the oats and Canadian field peas. In sections where soy beans and cowpeas grow satisfactorily they furnish an excellent mid-summer pasture. If sown later they make a good forage crop in late summer and early fall. When sown in corn they serve as an excellent supplement to the corn for fattening lambs.

If pastured by alternating the grazing in different parts and not allowing any particular section to be too closely eaten, a field of soy beans may be used for a considerable time. When most of the leaves have been eaten it is time to move to a fresh portion of the field so that the plants on the grazed part will have a chance to leaf again. In some sections it may be desirable to cut this growth and use it for hay, especially when other leguminous hays are not available.

It is good practice to sow rape at the last cultivation of corn. The lambs can then be turned in the corn field in the fall and will feed upon the lower leaves of the corn and rape and make excellent gains.

Lambs not only make a rapid and cheap gain on forages of this kind, but a forage-crop system prevents, to a large extent, injury from stomach worms. It has been demonstrated that by changing lambs every two weeks to ground not previously grazed that season, stomach worms can be effectively

Sheep on Pasture.

controlled. Since this condition exists, it is better to have the pastures of a convenient size, so that the lambs and ewes will consume all the forage in a period of about two weeks and again be turned on a new pasture. This does not allow the use of a second growth. The ground can then be plowed and a second crop seeded to afford later forage crops.

Where lambs are to go to market an effort should be made to get them off early. Lambs make the best and cheapest gains during the first four months of their lives. A grain feed fed in a lamb creep arranged in the field will prove helpful in pushing the lambs along and keeping them in good condition. This feed should consist of corn, oats and bran. Lambs should be fed all but no more than they will clean up each day. Never put clean feed into the trough where old feed remains.

Lambs weighing 60 to 75 pounds make the most desirable market offering. The reason is that lambs of this size dress out a desirable market carcass, which can be more readily handled by the butcher, in meeting the demands of his trade. Heavier lambs do not sell so readily, and when supplies are large there may be a small price discrimination in favor of lambs under 80 pounds.

Growers will find that by following a system of forage crops for rotation of pasturage to prevent stomach worms, and supplying grain feed in a lamb creep to keep the lambs gaining steadily, larger profits can be realized.

**Good Shelter for Pigs.**  
Pigs need a place of shelter to appropriate when the weather is bad, and shade when the sun is too hot for their endurance.

**Honestly the Best Policy.**  
"Did you ever buy votes?"  
"No," replied Senator Sorghum. "I always thought that an effort to buy a man's vote was as good a reason as you could possibly put into his mind for voting against you."

**Unfortified.**  
"That man has a most agreeable personality and a very persuasive address, yet he never seems to get anywhere."  
"Yes," replied Mr. Dustin Stax. "It's a case of wonderful salesmanship, with nothing to sell."

## NEW CURB ON DRUG TRAFFIC

Rules to Make More Effective Provisions of Harrison Law Being Framed.

### COURT DECISIONS HELP OUT

Assist the Internal Revenue Bureau in Defining Its Power Clearly—Leave No Loopholes for Quacks or Unscrupulous Physicians.

Washington.—The bureau of internal revenue is framing new regulations to make more effective the provisions of the Harrison narcotic law as amended February 24, 1919. The regulations will describe more fully the details of registration and stamping of drug packages and will tend to enable the bureau to keep closer track of physicians who are prescribing drugs.

#### Court Decisions Help.

Recent decisions by the United States Supreme court have helped the bureau by defining its power clearly. The recent decision in the case of *Bascom C. Thompson* is the first to expound the legal rights of a physician in prescribing drugs. It declared a physician cannot prescribe drugs simply to relieve the cravings of an addict, and that prescriptions for that purpose can be issued only on a special blank furnished by the commissioner of internal revenue.

The bureau has been hampered in its pursuit of illegitimate traffic in drugs through the ignorance or indifference of the public to the extent to which drug habits have grown and the evils attendant thereon. Even in medical circles there are still old-fashioned doctors who do not appreciate the evils of the habit or the ease with which it is contracted.

The Harrison law has a moral object in view as well as the collection of revenue. Its constitutionality has been upheld by the Supreme court as no invasion of the police powers of the states, as it is a revenue act. The new regulations will emphasize the necessity for a physician to give his personal attention to curing a patient of the drug habit. Confinement for the patient will be insisted upon, without which, in the opinion of leading physicians, no patient can be cured effectively.

#### Leave No Loopholes.

The regulations will be issued soon. Every effort will be made not to interfere with the recognized medical necessity for the use of drugs, without at the same time leaving any loophole by which quacks or unscrupulous physicians may dispense drugs purely for the satisfaction of addicts and for gain to themselves.

Numerous cases have been brought to the attention of the bureau where physicians have prescribed drugs in alleged attempts to cure addicts, and have dispensed them by mail or express. This practice is a violation of the spirit of the law and is only a blind to cover illegitimate traffic.

The bureau intends to curb all activities which enable a physician to take undue advantage of his licensed power.

### FRENCH HAD 100-MILE GUN

Chief Engineer of Navy Had Cannon Ready at Time of Armistice Signing.

Paris.—While giving evidence before a committee of the chamber of deputies investigating the Bley question M. L. Bourgeois, chief engineer of the navy department, said that at the time Paris was being bombarded by German long-range guns he had designed a cannon with a range of 100 miles, which could be put in position in an hour.

M. Bourgeois stated that before that time he had urged upon Albert Thomas, then undersecretary of state for war and munitions, the importance of bombarding the Bley iron works and had been asked to design a long-range cannon.

His plans, however, were sent from one committee to another and the order to manufacture it was not given until February, 1918. The gun was ready for action at the time the armistice was signed, he said.

**Caustic Words.**  
"Is the jury still out?"  
"Yes," said the sarcastic lawyer for the defense. "And I'm not surprised."

"No?"  
"When I looked in the faces of those jurors I could see there was 'nobody home.'"

#### SETTING THINGS RIGHT.

"I am told that you referred to me as an ogre."  
"The idea!"  
"Don't try to evade the issue, madam. Did you or did you not call me an ogre?"  
"Certainly not. I wouldn't be so unkind. I merely said your face threw my little Christopher into convulsions."

1/3 Fuel Saving Guaranteed

## Relief From Big Fuel Bills

SAVE at least 1-3 to 1-2 your coal bill this winter. At the high price of fuel this saving should more than pay for this wonderfully efficient

## Cole's Original Hot Blast Heater

For Hard Coal, Soft Coal, Slack, Lignite, Wood and Lighter Fuels

### 1-3 Fuel Saving Guaranteed

Burns the cheapest grade coal clean and bright. Remember that soft coal is half gas. This valuable half of your fuel money escapes up the chimney and is wasted in other stoves. Cole's Hot Blast Fuel Saving combustion (see open cut) stops this needless waste and saves and utilizes the gas half of the coal wasted by other stoves and turns it into warmth and cheer for your home.

Come to Our Store—We Can Rid You of This Burden

## There won't be enough Fordson Tractors to go 'round!

The demand for the Fordson tractor is so great that it will be a long time probably before everyone will be able to get one. Therefore, if you are looking for a tractor and wish a Fordson you should see us at once.

The Fordson has more than fulfilled expectations. With its economy—efficiency—durability—it is ideal for the average farm.

Burns kerosene—has special air washer—and all moving parts are enclosed—there is practically nothing to cause trouble.

### Use it with the Oliver No. 7 Plow

Here are some of the big Oliver features: The combined rolling coupler and jointer buries all stalks weeds and trash at the bottom of the furrow; and the step device maintains an even depth of furrow. The best plow for your Fordson—that's the Oliver.

Come in and let us show them to you.

#### LEGAL NOTICE

The State of Ohio, Mahoning County, ss. In the Court of Common Pleas.  
John T. Shellenbarger, Administrator, vs. Jacob Beaulieu, et al. Defendants.  
The undersigned defendants in said action will take notice that on the 6th day of August, 1919, said Plaintiff as Administrator de bonis non with the will annexed of Noah M. Blosser, deceased, filed his petition in said court, being cause number 4184, praying for the direction and judgment of the Court in regard to the true construction of the said will. Said defendants with their place of residence are as follows: Abraham M. Blosser, Anna Holderman, Christine Blosser, Rudolf G. Blosser and Samuel Blosser all residing at Houston, Kansas. Nathaniel Blosser residing at Haledale, Kansas. Salome Hively residing at 701 Main St., Napoleon, Indiana. Linden G. Blosser and Ben-

uel Blosser residing at Wakarusa, Indiana. Levi Blosser, Henry Blosser, Joseph D. D. Blosser, Della Blosser, Elvina Blosser and Anna Blosser all residing at Versailles, Missouri. Elizabeth Blosser, Arvilla Buzzard, Eve Blosser and Celestia Hoss all residing at Goshen, Indiana. Henry J. Blosser, LeVerna, California. William Blosser, 214 14th Street, Newport News, Virginia. Dr. John R. Blosser, 2010 Welton Street, Denver, Colorado. Ezra Blosser, Caladonia, Michigan. Barbara M. Steiner, 1223 St. Mary's Avenue, Fort Wayne, Indiana. Saloma Good, Dutton, Michigan. Sarah E. Good, Portland, Oregon. Lucinda Hoover, Goshen, Indiana. E. D. Ella Sutter, Kneehill Valley, Alberta, Canada. and Barbara Bollinger, Eugene, Tennessee. Care T. M. C. A. Said cause will be for hearing on and after the 19th day of September, A. D. 1919.  
H. A. Ernst, Atty. for Plaintiff. 19-4
